

## **Ihita Gangavarapu**

From New Delhi, India she is an Electronics and Communication engineer and currently working on computer vision algorithms to be deployed on Unmanned Aerial Vehicles. Her journey in Internet Governance started in 2016 when she was selected as a NextGen through the Nextgen program of ICANN 57. Since then she has been learning and contributing in IG. She mentored the NextGen at ICANN65 in Marrakesh, is a founding member of YouthIGF India and has organized the first YouthIGF in India in 2018.

Her interest lies in fighting cybercrime and enhancing online trust. This year she has been selected for the role of a job shadower for INSIG at NASIG 2019.
