

## **Greg Shatan**

Greg Shatan is a partner at Moses & Singer in New York, where he is a member of the Intellectual Property, Internet & Technology and Privacy & Cybersecurity practices.

Greg is the President of the Internet Society—New York Chapter (ISOC-NY), and represents the Chapter in ICANN's At Large Community.

His legal practice focuses on cutting edge issues at the intersection of law, technology, policy, creativity and digital rights, including technology transactions; intellectual property licensing, protection and enforcement; privacy, data protection and cybersecurity matters; Internet and domain name law; and web accessibility under the Americans with Disabilities Act.

Greg works with clients in diverse industries, most notably sports, media and entertainment, financial services, technology and online services, apparel and accessories, and consumer goods. He has been recognized by the WTR1000 (for Domain Name law), Legal 500 (for Media and Technology M&A) and Super Lawyers (for Intellectual Property).

Greg is currently a member of ICANN New gTLD Subsequent Procedures Working Group, including its Work Track 5, and the Review of All Rights Protections Mechanisms Working Group, where he served as Co-Chair of the Sunrise Protection Sub Team. Greg previously served as President of the ICANN Intellectual Property Constituency (IPC) of ICANN and has served on numerous ICANN Working Groups. In Montreal, he will be attending his 17<sup>th</sup> ICANN Public Meeting.

Greg earned his B.A. (Sociology/Psychology, Music) from Wesleyan University and his J.D. degree from Columbia University, where he was a Harlan Fiske Stone Scholar and the Editor-in-Chief of the Columbia-VLA Journal of Law and the Arts. He is a native New Yorker and a proud son of a Montrealer. He lives in Greenwich Village and occasionally plays the baritone saxophone.
