

David Cameron

As a NASIG volunteer that will include logistics and photography and a promise that I will make everyone look marvelous. I have been a photographer from the beginning of the digital age. I like the creative side of photography, whether it's visual documentation for business or creating memories of special moments for others.

The digital age has given me an opportunity to widen my scope of creativity with the luxury of modern technology. A great deal of my time has been spent with travel and event photography. With a leaning to taking photographs and creating still art. I have traveled a great deal learning other cultures and documenting the differences from our Canadian lifestyle. Family events are the most fun, I spend all my day making sure everyone is included and I don't have to join in the silly games.

I look forward to meeting everyone and catching all the smiles.
